

# L & LV Side Head Eased Edge Knives - Standard

**Quick delivery at a lower price.**

We offer the highest quality L and LV eased edge side head planer knives at the lowest price. Made from high grade high Tungsten steel and salt bath heat treated for consistent hardness. All knife cutting surfaces are precisely ground to produce a smoother finish. After heat treating we finish grind the top, face, and eased edge radius sections of the knife for more accurate cutting than milled knives. Also, our knives are easier to setup and axial align in the cutter heads because both side edges are precision flush ground. Give us an opportunity on your next order; you won't be disappointed. **RW Coating now offered for extended life. Call for details.**

Knives are balanced in sets at no extra charge. Quantity discounts offered.
