# Mini-HD Multi-Profile Insert Heads for Shapers

## Mini-HD Multi-Profile Insert Heads for Shapers

Designed to be used on a spindle shaper; these versatile heads are ideal for projects including end work on flooring as well as cope and stick cabinet door profiles. A feature of 60mm wide heads is the ability to fit two profiles on one knife. It's like getting two knives for the price of one! Mini-HD Heads will accept the same knives and backers as the larger 3-Wing HD MP Moulder Heads.

Mini-HD Multi-Profile Insert Head (3-Wing) & Knives				
60mm Head & Knife	60mm Width, 3.5" Minor Dia.		Part #	Price Each
		1-1/4" Bore Head		IHHD-60-1.25SD
Width	Knife Height	Depth of Cut	Part #	Price Each
	25mm	0.375"	ICHD-60-25	\$35.55
2-1/4" Max Wood Thickness	30mm	0.500"	ICHD-60-30	\$37.50
	35mm	0.625"	ICHD-60-35	\$43.75
	40mm	0.750"	ICHD-60-40	\$46.88
	60mm Backers		IBHD-60	\$31.25

60mm cutting length allows 2 profiles to fit in each knife.

## Carbide Tipped Wing Cutters to PCD Diamond Cutter Heads

We have solutions to tool up complex door and window component manufacturing from profile ground wing cutters to insert type cutterheads in hydro or straight bore to fit your moulder, tenoner, or CNC router. If you need extended tool life in MDF or abrasive materials, PCD diamond may be the right choice. Diamond tooling can offer run times over 100 times longer than the best grades of carbide. The most common tools made with diamond tips are router bits, saws, groovers, and custom profile flooring cutter heads. We custom design and manufacture the best tool for each project to ensure high performance. Tools are designed based on an evaluation of your machine and material cut; then a detailed CAD conceptual drawing is used to illustrate the tool for your pre-manufacturing approval.

Cope & Pattern Cutters

Raised Panel Shaper Cutter

Cope & Pattern  
3/4" x 1-1/8" Material

Glass Panel  
3/4" x 1" Material

Tongue & Groove  
3/4" Material
