

# Pattern & Surfacing Jointing Stones

Fine European and American made pattern jointing stones for most high speed moulders and planers. A huge inventory of popular stones in stock, for quick delivery, along with many special application stones. Quality stones made by **Norton, Pacific, Tyrolit, Atlantic Abrasives, and SpeedStone**. Hard to find wide, long, round stones and Diamond / CBN stones for jointing carbide or ceramic knives are also available.

**Resin Stones:**  
Best Finish Quality.  
React Harder.

**Vitrified Stones:**  
Cooler Honing.  
More Aggressive.

SpeedStone  
(USA Option)

\* Stones for both Domestic & Weinig

Metric size fine grit, soft stones are for Weinig, Wadkin, & Leadermac moulders. Coarser, Hard stones are for Mattison, Diehl, Tri-State, and other American moulders.

Fine grit stones offer a smoother finish while coarse grit stones wear longer and are aggressive.
