

Saw Blades

Alternate Top Bevel ground teeth provide a fine cut in natural woods. Works well in most applications, trimming, chopping, and cross-grain cuts.

We offer over 450 different stock saw blades for quick delivery. Made by the finest manufacturers that have proven to exceed every expectation. Blades are made with a high nickel heat treat hardened saw plate that is laser cut and polish ground for perfect flatness. Long wearing Micro-Grain carbide teeth are brazed and ground using the latest CNC robotic controlled processing line. Each blade is inspected to ensure high quality. Blades can be modified quickly to enlarge the bore size to fit your machine spindle. Additional blades are offered for your exact requirement. Call for prices and details on custom made saws that can be produced in about 3 weeks. Large quantity discounts offered.

Saw Modification	Price
Rebore - Under 2"	\$20.00ea.
Rebore - 2" - 3"	\$22.00 ea.
Rebore - 3" +	\$27.00 ea.
Pin Hole	\$7.00 ea.
Counter-Sink Hole	\$10.00 ea.
Keyway	\$10.00 ea.
Rebore Dado Set	\$60.00 ea.
Rebore Extra Chipper	\$8.00 ea.

PCD Tipped saw blades will outlast carbide tipped over 100 times! Great for cutting Hardiplank cement siding. Call for custom diamond saws and groovers.
